

## ESPACE

MSc in Earth Oriented Space  
Science and Technology

Prof. Dr.-Ing. Florian Seitz

20.04.2011

### ESPACE Seminar 2011

#### Time table:

| Date                     | Topic  | Candidate   | Supervisor  |
|--------------------------|--|-------------|-------------|
| Thu, 26.05.11<br>15.00 h | The evolution of Synthetic Aperture Radar systems: From SEASAT to Tandem-X   | Abu Taher   | Auer        |
|                          | Global in-situ ocean observation with 3000 free-drifting floats: Goals, principles and scientific impact of the ARGO project | Gisinger    | Seitz       |
| Tue, 31.05.11<br>15.00 h | Satellite altimetry: Spatial and temporal resolution by past, current and future multi-mission scenarios                     | Davalos     | Bosch       |
|                          | How precise do we know ocean tides on global scale?  | Sathe       | Bosch       |
| Thu, 09.06.11<br>15.00 h | Melting of Greenland and Antarctic ice sheets as observed by GRACE   | Spiridonova | Seitz       |
|                          | The Japanese regional satellite navigation system QZSS   | Allende     | Hugentobler |
| Thu, 16.06.11<br>15.00 h | The influence of the aerodynamic drag on space-crafts using the example of the ISS   | Cardenas    | Rott        |
|                          | On orbit servicing   | Gonzales    | Rott        |
| Tue, 21.06.11<br>15.00 h | Space Shuttle: The launching phase   | Gosh        | Rott        |
|                          | Ring laser for geodetic applications: Sensor characteristics and challenges  | Shazhad     | Schreiber   |
| Thu, 14.07.11<br>15.00 h | Data sources and accuracies for atmospheric delay correction of radar signals  | Erencia     | Eineder     |
|                          | Technical concepts and regulations for the communication with spacecrafts  | Pimento     | Reiniger    |

|                                  |  |          |             |
|----------------------------------|--|----------|-------------|
| <b>Tue, 19.07.11<br/>15.00 h</b> | Variations of Earth rotation caused by El Nino                       | Manninen | Seitz       |
|                                  | Measuring space weather  | Bueno    | Hugentobler |
| <b>Thu, 21.07.11<br/>15.00 h</b> | Airborne SAR systems   | Talay    | Schmitt     |
|                                  | The challenge of SAR and optical image coregistration in urban areas | Kang     | Schmitt     |
| <b>Thu, 28.07.11<br/>15.00 h</b> | <i>(Date kept in reserve)</i>  |          |             |

The seminar will take place in Room 2609
